THE LITTLE THINGS THAT COUNT.

By LILLIAN RUSSELL. In beauty culture, as in dress, it is the little things that count. The burnish on the hair, the polish on the nalls, the carefully kept eyebrows and eyelashes, all these trifles give that well groomed air to a woman

which is so essential if one wishes to look really chic. And where is the woman who does not? Well defined eyebrows give expres sion to the face and no one should neglect the care of their eyebrows

and eyelashes if they wish to look their best. A little bay rum applied to the eyebrows in the morn-Scanty eyebrows should be rubbed every night with the tips of the fingers dipped in yellow vaseline, stroking the hair either straight or in an arched direction, according to the the same time to cook shape dealred, for much can be done by careful manipulation to improve the shape of the eyebrows and dark en the color. For the eyelashes a little yellow vaseline smeared gently along the roots will keep them soft and silky, darken the color, and increase the growth Do not allow the vaseline to enter the eyes.

A pretty white chin adds much to a girl's attractiveness, and the French woman who has mastered all these little secrets of the toilet takes any amount of trouble to make and keep her chin soft and white.

A simple means is to rub the chin by mixing ten ounces of double distilled rose water and one ounce eau ened gravy (but do not let it boil). de cologne.

#### FOREIGN FASHIONS FOR AMERICANS.

Paris-The unles of black and white is certainly a "marriage de raison," for it is both practical and distinguished, and the fashion has lasted so long that every one is astonished at so much constancy in the realm of fashion, which is always full of fantasy and eager for novelty and

When cleverly and artistically combined, even simple black and white costumes, like the one of today's sketch, become most interesting.

#### Simple Home Remedy for Wrinkled Faces

Thousands are spending fortunes in frantic efforts to remove the signs of premature age from their faces. Such women willingly pay almost any amount of money for worthless wrinkle removers, of which there are many. If they only knew it, the most effective remedy imaginable is a simple harmless face wash which can be made up at home in less than a minute. They have only to get an ounce of powdered saxolite and half a pint of witch hazel at the drug store and mix the two. Apply this daily as a refreshing lotion. The effect is almost magical. Even after the first treatment a marked improvement is noticed and the face has a smug, firm feeling that is most pleasing.—Advertisement.

MISSIONARIES MAY

According to George F. Gibbs, secre tary to President Joseph F. Smith, orders have not yet been issued for the deportation of missionaries from Germany. It was his opinion that the order referred to students in the large universities only, and did not include music and art students, the students in the smaller schools and the mis-

## HEAVENLY RICHES

#### Love and Benevolence Integral Parts of Righteousness.

Ours the Wealthiest Period of History-Faith and Godliness on the Decline-Great Increase of Selfishness. An Integral Part of Sin-Lesson to the Church of Christ-Changed Conditions Under the Messianic Kingdom-Removal of the Stony Heart.

-- Reports from more than one hundred citles indicate great interest in THE PHOTO - DRAMA OF CREATION. This noble effort to call attention to the Word of God is being highly appreciated. Whoever sees it is irresistibly drawn toward Him who

gave His well-beloved Son for man's redemption Today Pastor Russell's text was. "So is he that layeth up treasure for bimself, but is not rich toward God."-

Luke 12:21. The discourse opened with the declaration that the world today possesses wealth beyond anything recorded in history, and in every conceivable way is growing richer. A brief enumeration of modern improvements and conveniences which would amaze our forefathers was followed by a series of questions which appeal to every thoughtful mind.

Are we as a race, the Pastor asked, growing rich toward God? Is not the very reverse true? Are not faith and godliness on the decline? Is it not true that within the last tifty years the love of money, which St. Paul declares is "a root of all evil," has intensified? Although we are better boused, fed and clothed than were our forefathers, yet there is a general curest due to trust in riches. Despite police, detectives, telegraphs, telephones, etc., human lives and property are still in peril because of the hunger for wealth.

"Whose Shall These Things Bo?" Taking up his text, the Pastor then discussed the parable from which it is taken. In it our Lord pictures a man .\_ were fallen in pleasant places and whose wealth increased under sun and shower. But instead of growing rich in character through the cultivation of noble qualities by using his opportunities for beiping those less favored than himself, this rich man permitted selfishness to dominate him Instead of dispensing wisely the wealth which Divine providence gave him, he accumulated more for himself.

Many today are following his example, the speaker regretted to say. In this parable the Master has drawn a picture of practically every man in the world, some of whom are really doing these things, and others are longing for the opportunity.

Hear the Lord's Estimation.

Commenting upon the Master's estimation of this foolish rich man, the Pastor asked, If the Lord considered the rich man of His parable a fool, what may we suppose is His estimate of the masses today-blessed as never before and therefore responsible as men never before were responsible in the use of money? He fears that the Lord is not well pleased with the scramble for wealth witnessed every where.

The speaker then explained that the Lord does not address His reproof to the world, but to His Church-the con secrated few. The world, he declared is about to learn a great lesson. Hav ness, in which the interests of rich and poor will clash in the conflict between those who have secured wealth and those who will strive to take it from them-"a Time of Trouble such as was not since there was a nation."

According to Scripture, God is not now appealing to the world; for well He knows that so intense is the spirit of avarice that such an appeal would be useless. By the time that the poor world has learned that selfishness is an integral part of sin, even as love and benevolence are integral parts of righteousness, it will be ready to cry for Divine assistance. Then God's means of assistance, the Messianle Kingdom, will be inaugurated and will bring blessed results of love, joy, peace and good will amongst men.

To the Church-God's saintly people both in and out of sects, parties, etc ..the Lord says, Let not your treasures be of an earthly kind; spend and be spent in the interest of others and in the service of God; and thus seek to share with Me, not only in the sufferings of the present, but in the glory, honor and immortality of the future.

"Take Away the Stony Heart." The Pastor concluded his discourse ifter showing that during Messiah's Millennial Reign humanity's hardheartedness will gradually be dissolved. Satan will be bound and the curse removed. The stress being lifted, mankind will rise from their present condition of selfishness back to the image of God, lost in Eden, redeemed at Calvary. As the Scriptures declare, God will remove the stony heart and give them a heart of flesh-kind, sympathetic. But the incorrigible will He destroy in the Second Death.
